

Homework #17- Hand in no later than 2:41 p.m., Wednesday, July 12.

Here is a triangulation of the surface S :

123 234 345 451 512 136 246 356 416 526

Find a polygon P so that S is obtained from P by identifying certain paired edges—indicate the paired edges, of course.
